17th Annual JES Convention

CHAIRMAN'S MESSAGE

As the Chairman convention committee Jain Engineers Society foundation, I am thrilled to announce that this prestigious event the 17th National Convention will be held in Ujjain, a city of great historical and religious significance in Madhya Pradesh, from the 9th to the 10th of November, 2024. This convention will bring together the innovative minds of the JES community from around 30 cities across India. I extend a warm welcome to all participants.

In today's rapidly changing world, it can be challenging to maintain focus on crucial issues and establish a platform dedicated to creating a positive impact on individuals and groups. To truly make a difference in our communities, it is essential to have a continuous exchange of ideas among passionate and creative thinkers. JES has been a forum for such ambitious entrepreneurs, business leaders, and academics for the past 22 years, consistently contributing to society by addressing social challenges and empowering those in need. Our mission is to inspire, connect, and equip people with the latest information, fostering awareness and promoting positive thinking. I am confident that the sincere efforts made during this convention will not only be a milestone of great benefit to all active participants but will also enhance the overall experience.

In this regard, I invite you to be a part of this convention, which promises to be another remarkable achievement in the JES family's journey. This event offers a golden opportunity for strong networking, learning new skills, expanding knowledge, and much more. I eagerly look forward to seeing the future creators come together to contribute to a more equitable and sustainable world.

Warm regards,
Maneesh Jain

Glimpses of Previous National Conventions

Indore 10th Convention (12-Nov 2016)

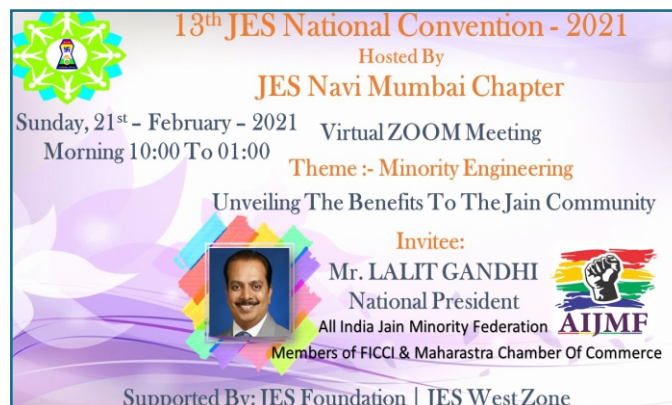

Goa 11th Convention (25-28 Nov. 2017)

12th - Udaipur 12-13 January 2019

OBJECTIVE

- Work for protection of environment, conservation of water resources and safeguarding of sources of energy in urban and rural regions.
- Work for conservation of heritage and archeology of ancient shrines. Spreading knowledge about the scientific outlook and history of Jainism.
- Construction of lodges for the convenience of travellers and hostels for students.
- Involve in the establishment, running and patronage of Caring Houses for the disadvantaged (disabled, visually impaired, deaf and dumb, etc.), destitute and aged.
- Work on issues for emancipation of children and women such as health, education and self-dependency and sensitise them about their rights.
- Work for assistance and upliftment of people affected by natural calamities and social problems.
- Popularising virtues like vegetarianism and non-violence.
- Guide young generation about career opportunities in the field of engineering and assist in providing employment opportunities to capable engineers.
- Conduct activities like organising fairs, exhibitions and seminars for objectives such as bringing Jain Engineers on a forum for social and economic progress of the community.
- Providing incentives and scholarships for meritorious students in engineering and facilitating contacts with established professionals in India and abroad.
